LAUDARTE

The Pursuit of Excellence

Laudarte was created in 1992 as a lighting company able to transmit, through its collections of lamps, ranging from classic style to decorative, the artisanal savoir faire on which it was founded.

For each product:

Scagliola

The ancient crafting technique of Scagliola combines the chips of semi-precious stones with plaster, achieving beautiful and peculiar effect. First examples of this art appeared in Roman times. **Laudarte** uses **scagliola** to ennoble materials such as plaster and selenite plates, giving life to inlaid work with incredible sheen, transparency and pearly whiteness.

Glass & Crystal

The crystal of **Laudarte** is always hand-cut and paste-coloured.

The technique is the one of cased crystal.

The crystal is covered with colour and then carved out, thus bringing the material back to life with the most vivid colours.

MODULAIRE
the reinterpretation
of the past

The **Modulaire** suspension lamp takes inspiration from the tubular neon model, the undisputed star of 20th-century lighting design. The unique cannetté processing of the tubular crystal element allows the light to refract, creating luminous decorative effects. The junction is made of precious gold, nickel, silver, or lacquer, while the lamp's characteristic modular shape is infinitely replicable.

CANDY

Inspired by the warm, cozy pleasure of sweets, the Candy table lamp recalls the stylistic features of Mid-Century design with a fresh, contemporary twist. The colored glass and the luminous glow of brass give it a unique, soft, and elegant style. Available in different colors.

LUMIÈRE

The evocative warmth and brightness of the bulbs arranged circularly like so many candles along the diameter made with precious brass:

Lumière is inspired by the majestic French neoclassical chandeliers, characterized by luxury and refinement, wisely adapted through clean and essential design.
